Stroke or Transient Ischaemic Attack (TIA)

First Time Application

- There is a 12 month suspension period following a stroke or TIA (6 months for Navigators)
- Please list all medications and when these were started
- New diagnosis - All stroke consultant (or other relevant consultant) letters should be provided detailing the cause of stroke, results of a stress ECG, carotid artery scan and any history of cardiovascular disease
- Previous history of stroke or TIA (i.e. those declared in a previous application with subsequent approval) – a Medical Report and resting ECG will be required for a minimum of 3 years

  NOTE: Dependent on the cause of stroke/TIA additional investigations may be required

Future Requirements

Once your application has been approved by our Consultant Doctors, we will let you know what additional information will be necessary to support future renewals. This may include:

- Annual Medical Report
- Specialist Assessment
- Additional tests or scans
