## Section S – Sprints, Hill Climbs & Drag Racing

### Proposed Regulation

#### Paddock & Track Regulations

**S9.3.1.1.** With the exception of Drag Racing, the heating of tyres, by any method other than 9.3.1. above, or their treatment by any chemical substance is prohibited. For the avoidance of doubt, no manner of abnormally raising the temperature of the tyres/wheels above the natural ambient temperature is allowed.

**The use of heat guns to clean and prepare slick tyres between runs is permitted.**

#### Date of Implementation: Immediate

**Reason:** This regulation has been in place for a considerable time however the Sub Committee have become aware of an inconsistency in the understanding and implementation of the regulation. Therefore this proposal is to clarify the regulation to ensure it clearly reflects the original intention and current practice.
